SUMMARY:

Full Stack Software Developer with expertise in front-end development, experienced in making great front-end projects using React Js and Tailwind CSS

Technical Skills:

- **Frontend -** JavaScript, React Js, Redux, Nextjs14, TypeScript
- **Backend -** Node.js, Express.js, TypeScript
- **DevOps** - Docker, Kubernetes, AWS, Jenkins, Ansible
- **Database -** mySql, MongoDB, PostgreSQL
- **Languages** - Python, Java
- **Version Control -** Git, Github

Projects:

[Live Link] [Github] **SaveIT (Password Manager) -** Front-end Development
Tech Stack - React Js, Tailwind CSS
- Developed a **modern password manage**r application with **React.js and Tailwind CSS**, featuring a clean and **trendy UI** using components and backgrounds from [ibelick.com](#).
- Implemented **secure storage of user credentials** with an intuitive interface, enabling users to easily manage their website login information.
- Applied **responsive design principles** to ensure seamless functionality across all devices, enhancing **user experience** and accessibility.

[Github]**Currency Convertor -** Front-end Development
Tech Stack - React Js, Tailwind CSS
- Created a **Currency Converter using React.js**, enabling users to convert between various currencies in real time.
- Integrated **third-party APIs to fetch** current exchange rates, ensuring accurate and up-to-date conversions.
- **Designed a responsive and clean interface** using Tailwind CSS for seamless usage across devices.

[Live Link] [Github] **Todo List** - Front-end Development
Tech Stack - React Js, Tailwind CSS
- **Developed a dynamic Todo List application** using React.js and Tailwind CSS, enabling users to create, edit, and delete tasks efficiently.
- **Implemented local storage** functionality to persist user tasks across sessions, ensuring data retention and a seamless user experience.
- **Utilized responsive design principles** with Tailwind CSS to create a visually appealing and mobile-friendly interface, improving accessibility across devices.

[Github]**Weather App** - Front-end Development
Tech Stack - HTML, CSS, JavaScript
- Integrated **OpenWeatherMap API** to fetch and display real-time weather data.
- Designed a **responsive** user interface using HTML and CSS for optimal viewing on various devices.
- Implemented dynamic **JavaScript functionalities** to update weather conditions based on user input.

Experience:

Enthusiastic and motivated fresher with a keen interest in applying my web development skills to drive innovation and contribute effectively to dynamic projects.

Education:

➔ Bachelor of Computer Applications **(BCA)** |Tecnia Institute of Advanced Studies, New Delhi, Delhi | Expected Graduation: **2025**
